

# See Clearly

## Quantum Eye Complex

Advanced Support for Clear, Strong Vision and Healthy Eyes\*

### Quantum Eye Complex Key Benefits

- Promotes clear vision and healthy eyes, including macula, retina and lens\*
- Supports healthy eye growth, and rejuvenation\*
- Supports the body's natural detoxification processes with targeted, quantum quality antioxidants for vision\*

### What's In Quantum Eye Complex?

- The most complete eye protection formula ever conceived in quality, quantity and synergy\*
- Broad-spectrum antioxidant defenders, capable of quenching every known free radical, both ROS (*reactive oxygen species*) and RNS (*reactive nitrogen species*)\*
- Therapeutic amount of zeaxanthin (6,000 mcg / Vcap) the most powerful carotenoid for eye protection\*
- Therapeutic amount of lutein (3,500 mcg/ Vcap), another powerful carotenoid that promotes optimal eye health (marigold source- *not synthesized*)\*
- Excipient-free: No binders, fillers, glues or other toxic tagalongs as in tablets and gelatin capsules

### Do you have any of these symptoms?

- Dry eyes
- Cloudy or blurred vision
- Tired Eyes
- Sensitivity to sunlight or bright lights
- Poor night vision
- Eye floaters
- Twitching sensations

If so, these could be early signs of more serious problems that can rob you of your precious eyesight. No matter what your age or the condition of your eyes, **Quantum Eye Complex** can help you save your eyes and help keep your vision clear and strong for years to come. Vision is one of your most precious gifts in life - start protecting the health of your eyes today.

#### Myth #1: Deterioration of your eyes is part of getting older.

The Truth: Absolutely not true! Poorer vision and thicker glasses is not from getting older. Numerous factors may play a role, especially a lack of key nutrients to feed and maintain the eyes. **Quantum Eye Complex** provides superior, broad-spectrum, synergistic, quantum quality nutritional protection.

#### Myth #2: Changes in your vision for the worse are permanent.

The Truth: Some people think that once their vision starts to falter, it can *never* get better again - so they feel resigned to stronger glasses or

not driving at night. However, failing eyesight is a sign that something is wrong. Many research studies show that it is possible to keep your vision clear and strong and you can even improve your night vision. Don't let lack of key nutrients, such as those found in **Quantum Eye Complex**, rob you of your precious sight.

#### Myth #3: All nutritional products for the eyes are about the same.

The Truth: Absolutely not true! Individual nutrients can vary from complete "junk" to the very best "quantum quality". One landmark research study showed *only* 2.5% of randomly selected nutritional products were both non-toxic and effective. That means 97.5% were literally "junk". In contrast, every single nutrient in **Quantum Eye Complex** is individually pre-screened by our advanced, state-of-the-art photoluminescence device to assure optimal freshness, potency and purity which together can deliver the "Quantum Nutrition Effect".

# Quantum Eye Complex: *Ingredients*

## **Here's what you'll get — all in one bottle:**

- The most complete eye protection nutrition yet conceived
- Unparalleled, comprehensive antioxidant protection achieved by the synergistic nutriture of quantum quality zeaxanthin, lutein, bilberry, blueberry, pine bark, alpha lipoic acid, grape seed, carrot, broccoli and more
- All nutrients are exquisitely well grown and free of chemo-toxins. Together they maximize, enhance and regenerate each other's protective power.

**Extra Zeaxanthin.** We went the extra mile to ensure our super vision formula is extra rich in zeaxanthin (concentrated from pure marigold — *not synthetic sources*). Zeaxanthin is considered by experts to be the *most* important carotenoid antioxidant for eye protection.\* It's the most needed by the eye but the least available in the diet. Our master formula contains a whopping 6,000 mcg per Vcap for maximum eye protection.\* **Cauti-****tion:** Most eye products don't even contain zeaxanthin at all or skimp on it (*it's very expensive*), including only a token amount (such as 600 mcg or less) and often it is synthetic.

**Powerful Lutein.** We included 3,500 mcg/Vcap of natural-source lutein, another key carotenoid antioxidant, for its superior benefits in eye health.\* Lutein (from marigold — *not synthetic sources*) has been proven to help protect the macula, retina, lens and more.\* Together, zeaxanthin and lutein in our formula work as powerful synergists, with the sum of their benefits far exceeding their individual effects. For example, together they help absorb near-to-UV light which can damage the retina.

**South American Zeaxanthin** (*concentrated from pesticide-free South American marigold — not synthetic sources*)

- The most important carotenoid (*a special class of nutrients*) for eye health and protection. Diet provides only about 180 mcg/day\*
- Therapeutic levels: a whopping 6,000 mcg per Vcap — critical for protection during injury or illness. Studies recommend 4000 mcg/day total (both zeaxanthin and lutein) to prevent AMD (Age-related Macular Degeneration)\*
- Research shows it helps prevent age-related macular degeneration and cataracts (in combination with lutein)\*
- Helps effectively quench free radicals (*singlet oxygen & peroxy radical*) with lutein, protecting the macula, retina and lens of the eye\*

**South American Lutein** (*concentrated from pesticide-free South American marigold — not synthetic sources*)

- Proven by research to help prevent age-related macular degeneration and cataracts (in combination with zeaxanthin). Diet provides only about 900 mcg/day\*
- Therapeutic levels: a whopping 3,500 mcg per Vcap\*
- Helps effectively quench free radicals (*singlet oxygen & peroxy radical*) with zeaxanthin, protecting the macula, retina and lens of the eye\*

**European Bilberry** (*Vaccinium myrtillus*)

- Contains anthocyanosides (a powerful bioflavonoid/antioxidant) which helps strengthen capillary walls, protecting and supporting the vascular system of the eye and entire body\*
- Helps strengthen the retina\*
- Supports clear night vision and vision acuity (*sharpness of objects*)\*
- Helps keep vision clear and strong — to protect against needing corrective glasses\*

**South American Nonhybrid Blueberry** (*Vaccinium sp.*)

- High content of antioxidants for powerful free radical protection
- Supports sharper night vision and reduced eye fatigue\*
- Strong support for blood vessels, especially around the eyes\*

**French Maritime Pine Bark** (*Pinus pinaster*)

- Contains powerful phytonutrients, including catechin, epicatechin, taxifolin, procyanidins, and proanthocyanidins
- Helps protect the retina, blood vessels and healthy fluid in the eye\*

**Horsetail Herb** (*Equisetum arvense*)

- Supports healthy calcium metabolism in the eye and the whole body\*
- Helps the body to overcome inflammation, astringent and tissue healing\*

**European Eyebright** (*Euphrasia officinalis*)

- Contains natural vitamin A and C (*not synthetics*)
- Helps the body to overcome inflammation for both chronic and acute inflammation of the eye and eyelids\*
- Helps nourish the entire eye and promotes healthy sensitivity to light\*

**European Barberry Bark** (*Berberis vulgaris*)

- Contains berberine which promotes strong immune-specific protection\*
- Helps strengthen the eye as well as the liver and gallbladder which are linked via the meridians to the eye\*

**Chinese Ginkgo Biloba Leaf**

- Contains special phytonutrients (terpenes, lactones, bilobalide, ginkgolides A, B, C) which help enhance blood circulation to the eye and entire body\*
- Supports healthy intraocular pressure in the eye\*
- Powerful support for healthy histamine response\*

**Alpha Lipoic Acid** (*from natural sources — not synthetic*)

- Broad-spectrum protection from damaging free radicals, both ROS (reactive oxygen species) and RNS (reactive nitrogen species)\*
- Proven by research to raise glutathione (a critical protective antioxidant) blood levels from 30 to 70%\*
- Helps rejuvenate oxidized vitamins C and E, glutathione and CoQ-10 for premier protection from cellular damage\*
- Promotes dramatic reduction of free radical damage and associated cataract risk\*

**European Grape Seed Extract**

- Supports retina, capillaries and visual acuity (*sharpness of objects*)\*
- Powerful antioxidant and free radical scavenger, pesticide-free (*unlike American sources*)\*

**South American Piper Nigrum Seed**

- Rich in alkaloids, protein and minerals that nourish the eye\*
- Powerful support against bacteria\*
- Powerful circulatory support\*

**Grade A Japanese Chlorella** (*Chlorella pyrenoidosa*)

- Supports heavy metal detoxification\*

**Wild Blue Green Algae** (*Aphan. flos-aquae*)

- Powerful genesis effect for tissue rejuvenation\*

**European Carrot Extract**

- Rich in flavonoids, carotene, natural vitamins and minerals
- Cleanses and supports the liver and kidneys (linked to the eyes)\*
- Supports healthy eyesight and helps improve night blindness\*

**European Broccoli Extract**

- Rich in calcium, carotenoids, vitamins A, C and K and all the essential amino acids (helps in regeneration of worn out tissue)\*
- Contains a unique array of antioxidants and phytochemicals, capable of quenching free radicals\*

**European Propolis Extract** (*pesticide-free, free of heavy metals*)

- Contains over 500 known bioflavonoid antioxidants
- Delivers unparalleled, broad-spectrum protection for the skin (epithelium) and mucosa of the eye\*

**Medicinal Mushroom Extracts** (*raw and fermented mycelial extracts of Reishi, Hericium and Coriolus*)

- Contains special highly bioavailable alkaloids and triterpenes which support eye, nerve and liver rejuvenation\*
- Powerful immune-specific support\*
