

Master pH Balancer*

The pH Trio

The Key to Great Health and Long Life*

3 Products to Promote an Optimal pH and Whole Body Health*

- ✓ **#1 Coral Legend** - The best in ionized minerals yet found. A unique coral powder, rich in ionized calcium, magnesium and trace minerals, (NOT colloidal minerals); an optimal 2 to 1 ratio (calcium to magnesium); 100% pure coral (no added sand or other fillers).
- ✓ **#2 Quantum Aloe Powder** - Highly charged, concentrated organic aloe powder combined with pure organic pomegranate: the "gateway" transporter of the ionized coral minerals, a natural chelating agent bonding the minerals to the aloe's amino acids, thereby targeting them to the organs and endocrine glands.*
- ✓ **#3 Quantum Cod Liver Oil (Capsules or Liquid)** - Rich in natural vitamin D, an absolute requirement for absorbing calcium;* best quality U.S.P. grade oil -- not animal feed-grade which is most commonly sold in health food stores.

What Is Your pH?

To test your own body's pH, collect a small sample of your first morning urine in a clean cup. Check the pH of your urine by dipping a small piece of pH tape into your urine; then immediately match the color of the tape to the pH color chart on the roll. The number corresponding to the color tells you the pH. After you wet the tape, do not wait. Immediately match the color. If you delay for a few minutes, you may get a false reading. Ideal pH: An ideal first morning urine pH range is between 6.4 to 7.0. Acid pH: A urine pH below 6.0 is in the acid range (minerals badly needed; time to rebuild your mineral status). Highly alkaline pH: a urine pH over 8.0 is often a danger sign, warning you that your pH is too far out of range. (Minerals are exhausted; you may be in emergency alkalosis where the body is using anything it can [i.e. ammonia] to try to buffer the increased acid load.)

- Feeling lousy, pessimistic
- Angry, irritable
- Fatigue, no energy
- No desire to help others

- Feeling great, optimistic
- Happy, joyful
- Full of energy
- Desire to help others

The Solution: Move into the best pH range with The pH Trio.*

The 115 Year-Old Man

In 1979, a British journalist went to Japan to interview one of the oldest documented living people in the world, Mr. Izumi. He was a sprightly 115 year-old man in amazingly good health who lived on an island off the coast of Japan. He appeared healthy, active and alert. Most of the other inhabitants on the island were also in great health and seldom died before age 95!

What Was Their Secret Of Youth?

Researchers found the water the islanders drank was uniquely different. It contained ionized minerals leached from coral on which the island was built. These unique minerals made the water highly alkaline. When drunk, it helped the body keep a superior acid/alkaline balance. The highly mineralized "coral" water was found to be chemically very similar to essential elements found in the human skeleton, body fluids, blood and amniotic fluid. Incredibly, the researchers also discovered that the "coral" water could neutralize internal waste products and heavy metals.

The Calcium Factor

The body must reduce any form of calcium into its ionized form in order to use it. Since up to 92% of the calcium in Coral Legend is already ionized, the body can use the calcium immediately without having to break it down. (Great news for the elderly and those with poor digestion.) A key role of ionized calcium is to neutralize acidic compounds anywhere in the body, before damage takes place. Ionized calcium is critical in order to help promote cleansing.* (Even a great herbal detox won't work very well without ionized calcium.)

The Key To Great Health

If the body's pH becomes acidic, it becomes harder and harder for the body to uptake other nutrients, such as minerals, vitamins or herbs. The key is to establish the proper acid/alkaline balance of your body.* An acidic pH creates a hostile internal environment, like a raging storm, making the body struggle to get the nutrients it needs. The more acid you become, the worse you will most likely feel.

As the body's pH comes into better balance (pH 6.4 to 7.0), it is like a sunny spring day; your body can easily assimilate minerals that were very difficult to absorb at a more acid pH. The first morning urine pH is an accurate reflection of the body's tissue pH. Obtain a roll of pH tape to measure your own first morning urine pH.

The GateWay Factor

We call Coral Legend the "Gateway Factor" because as it begins to promote the proper acid/alkaline balance in the body, it can also potentiate (like a "gateway") the uptake of other nutrients as found in food or supplements.* Once the acid/alkaline balance moves back into a more optimal range, nutrients are more accessible and uptake is greater.

Up To 10 To 20 Times More Oxygen

In an alkaline environment, you have abundant oxygen. As the pH of the urine drops, less and less oxygen is available to the tissues. Small changes of 1/10 to 2/10 in pH can mean 10 to 20 times more oxygen availability. Ionized calcium (as found in coral) is the key mineral to help keep the pH near ideal.*

Nutritional Breakthrough

We have found that the ionized minerals in Coral Legend have spectacular tissue bioavailability when mixed with Quantum Aloe Powder. When mixed with Coral Legend, the amino acid structure of the aloe powder ideally targets the coral minerals to the soft tissue for greater metabolic efficiency. In addition, Quantum Cod Liver Oil is needed to supply an ideal source of vitamin D. Vitamin D is a requirement for the intestinal absorption of calcium. Without sufficient vitamin D, you cannot adequately absorb calcium. Most people do not consume enough vitamin D in their diets. Quantum Cod Liver Oil, an excellent source of vitamin D, contains only pure U.S.P. premium grade Norwegian cod liver oil.

The pH Trio is the perfect daily nutritional foundation for every family member.

Promoting Rapid pH Balance*

- Ionized calcium is the key buffer that helps maintain the acid/alkaline balance.*
- A small change of 1/10 or 2/10 in pH can mean 10 to 20 times more tissue oxygen availability.*
- Many doctors rate Coral Legend in the miracle category for their patients.

What's The Difference?

O u r s

1. Premier Ionized Coral Powder

The highly ionized minerals in our unique coral (ionized calcium, magnesium, trace minerals) allow immediate absorption.

2. Helps Promote Optimal pH Quickly*

Considered the best pH balancer by many doctors and biochemists.

3. Easily Dissolvable

100% fine-mesh coral powder (absolutely no additives), easily dissolvable in water or other liquids. Great delivery with instant assimilation.

4. Feeling Great

Imparts an immediate sense of well-being for most people usually within a few minutes or within 24 hours.*

5. Incredible Results

Both doctors and patients report many health-benefitting results such as greater flexibility, easier breathing, faster running times, clearer mental thinking, sound sleep, etc.*

T h e O t h e r G u y s

1. No other product on the market can match Coral Legend's ionized calcium-magnesium delivery system for immediate uptake into the body. Other products may contain poor quality coral, the wrong species or many impurities. Other calcium products may be difficult to absorb or ineffective.

2. Other products may take months to work (if ever). No other product can promote optimal pH like Coral Legend.*

3. Other products may contain gritty coral, often with impurities such as sand. They may not be readily dissolvable and thus, are poorly assimilated.

4. Other products may produce no immediate change, take months to work (even years), or produce no beneficial changes at all.

5. Other products may have no perceptible results.
